Art Unit: 2651

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 14-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original specification fails to show "root meat square" and should be canceled. In re Rasmussen, 21 USPQ 323 (CCPA 1981).

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-18,25 are rejected under 35 U.S.C. 102(b) as being anticipated by Prior Art Figures 6A and 6B of the drawing amendment of November 7, 2003 of the instant application. See MPEP 2129, In re Nomiya, 184 USPQ 607 (CCPA 1975).

Art Unit: 2651

5. Applicant's arguments filed 5/31/05 have been fully considered but they are not persuasive. Applicant contends that Figures 6A and 6B are not labeled Prior Art. This is not correct. The amended drawings of November 7, 2003 are labeled "Prior Art", even though the original drawings of July 14, 2003 are not. If this is a typographical error, the applicant should expressly recite the situation and correct the drawings.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
